Our Products

We supply an extensive range of products, including exercise equipment, gym/fitness, orthopedic supports and splints, mobility aids, sports support, physiotherapy products, machines and equipment, to meet the unique needs of our customers.

1. ORTHOPAEDIC PRODUCTS
2. PHYSIOTHERAPY PRODUCTS
3. FITNESS & EXERCISE EQUIPMENT
4. MOBILITY AIDS
5. SUPPORTS & BRACES
6. LABARATORY EQUIPMENT
7. HOSPITAL & FURNITURE
8. ICU SOLUTIONS & MACHINES
9. WHEELCHAIRS & COMMODOES

WHEELCHAIRS & COMMODES

1. Standard Wheelchair

We provide durable standard wheelchair made of chromed steel. This wheelchair is foldable hence making it consume little space while not in use. Has removable calf strap. It has parking brakes from both sides. Front casters and rear wheels are solid. Standard wheelchair is suitable for persons up to 100 kg. Simple structure make, well-constructed steel frame with scratch resistant finish will keep this ride looking sharp and going strong.

2. Commode Wheelchair

We provide Standard Commode Wheelchair which is a simple type of seat with a commode. The chair has a self-contained & removable & plastic commode bucket.

You can also position the chair over a toilet and use it. The chair comes with a durable steel frame with a powder-coated finish. The chair comes with flip-down armrests & detachable footrests.

WHEELCHAIRS & COMMODES

3. Reclining High Back Wheelchair

We provide Reclining High Back Wheelchair which meets the individual needs of the user by providing flexibility over sitting angle and positional change. It does this by increasing the angle between backrest and seat. Other features include adjusting foot rests and accessories to reduce shear. This is a good thing as redistributing weight from under the person's bottom to the back support helps to reduce pressure and increase comfort.

4. Electric Wheelchair

We provide Electric folding wheelchair, also called electric-powered wheelchair, motorized wheelchair, or powerchair, with any seating surface with wheels affixed to it that is propelled by an electrically based power source, typically motors and batteries. Our electric wheelchair allows you to drive on your own or use the handle for companion manual push.

MOBILITY AIDS

We provide mobility aids which are devices designed to help people who have problems moving around enjoy greater freedom and independence. Typically, people who have disabilities or injuries, or older adults who are at increased risk of falling, choose to use mobility aids.

These devices provide several benefits to users, including more independence, reduced pain, and increased confidence and self-esteem. A range of mobility devices is available to meet people's needs – from canes and crutches to wheel- chairs and stair lifts.

Types of Mobility Aids

The type of mobility aid required will depend on the mobility issue or injury. The most common types of mobility aids include:

- Canes (White canes, Quad canes, Forearm canes)
- Crutches (Axillary (underarm) crutches, Lofstrand (forearm) crutches, Platform crutches)
- Walkers (Rollators, Knee walkers, Walker-cane hybrids)
- Wheelchairs
- Mobility scooters
- Safety Modifications (Ramps, Stair lifts, Hand rails)

SUPPORTS & BRACES

We provide orthopedic supports & braces which are designed to address musculoskeletal issues; they are used to properly align, correct the position, support, stabilize, and protect certain parts of the body (particularly the muscles, joints, and bones) as they heal from injury or trauma.

These medical devices are often prescribed for the patient to wear during the process of recovery and rehabilitation.

Types of Supports & Braces

The type of supports & Braces required will depend on the body condition. The most common types of supports & Braces include:

- Ankle & Foot Braces (Adjustable Ankle Support, Heel Cushions, Elasticated Supports, Tubular Support Bandage, White)
- Knee & Leg Braces (Neo G Calf and Shin Splint Support, Knee Strap, Hinged Knee Brace, Adjustable Knee Support, Open Patella Knee Support, Knee Support)
